

Free Energy Auditing Training

Presented by Community Action for Energy - Part of the Energy Saving Trust

Wednesday 18th March 2009 – Oblong Resource Centre, Leeds LS6

9.45am registration for a prompt 10am start – finish by 4.15pm

Lunch is provided on the course

Energy Auditing

If you would like to be able to carry out a basic energy audit of a community building then this course will show you some of the processes involved. This includes monitoring of consumption and identifying the potential savings that could be made through the introduction of energy efficiency improvements.

Contents of the day

Section 1	Introduction to CAfE
Section 2	Using your energy efficiently
Section 3	Energy auditing – with 'hard to treat' buildings in mind
Section 4	Renewable energy feasibility

What you will learn:

- The services that CAfE offers and what it can do for you
- The principles of energy monitoring and consumption analysis
- Understanding of meter readings and bills
- To discuss what is involved in an energy audit
- Identification and control of different types of heating, whether they are efficient and appropriate
- To examine specific issues relating to heat loss and insulation
- Identification of efficient lighting types and controls
- Recognising opportunities for reduced consumption and increased efficiencies
- To understand the basics of some small scale renewable energy technologies
- Explore how an auditing project could benefit your community and how CAfE and other organisations can support your project

To join the auditing course email info@sure-energy.org.uk
